

6th & 7th September 2010

Donaghys is running a series of on-farm fielddays to educate farmers and industry people on the benefits of the Donaghys LessN System.

The Donaghys pasture management team will be on hand to answer all your questions and to show you how to grow **MORE** pasture, **FASTER** and **CHEAPER** using only half the urea.

A BBQ lunch will be provided at the end of the fielddays.

For more information phone your local Donaghys Territory Manager:
Hamish Moodie on **027 495 5753**
